PROFESSIONAL SUMMARY

Senior Full Stack Software Engineer with 6+ years at Xome, building and owning production platforms end to end -- frontend (React, Next.js, TypeScript), backend (.NET Core, C#), database (SQL Server), APIs, and payments. Designed and built ~50% of a DIY real-estate auction portal that onboarded 2,160+ sellers, and owned a paid property-insights product end to end. Drives Applied AI / AI-SDLC adoption at Xome -- automating the ticket-to-PR development workflow with GitHub Copilot and Claude Code -- presented to VP-level executives and ran an Applied AI workshop for a team.

CORE COMPETENCIES

.NET Core / C# / ASP.NET Core

React & Next.js / TypeScript

SQL Server & API Design

Azure (App Service, Key Vault, App Insights)

Applied AI / AI-SDLC (GitHub Copilot, Claude Code)

Payments Integration (Cybersource)

Mentoring & Technical Interviewing

Cross-team API Contracts

WORK EXPERIENCE

Xome 2020 - Present

Senior Software Engineer

Coimbatore, India (Remote)

- Designed and developed ~50% of the Xome Seller Portal (Seller Self Service), a DIY real-estate auction platform: built APIs and crafted API data contracts for cross-team collaboration, full stack (TypeScript frontend, .NET backend, SQL Server database) -- 2,160+ sellers onboarded
- Owned the Home Value Paid Report end to end (design, development, deployment): integrated Cybersource microform payments (card, Google Pay, Apple Pay), built .NET Worker Services with RabbitMQ -- 30+ paid reports sold
- Built and promoted a fully automated AI-SDLC dev process: AI fetches tickets from Azure DevOps, edits across projects, manages branches with worktrees, raises and completes PRs, triggers CI/CD autonomously -- using GitHub Copilot (VS Code Agent Mode, Copilot CLI subagents) and Claude Code
- Presented a GitHub Copilot session to VP-level executives and ran an Applied AI workshop for a team at Xome
- Mentored 4 interns from onboarding through internship completion; conducted 5+ hiring interviews for senior-level positions

PROJECTS

Xome Seller Portal (Seller Self Service)

DIY real-estate auction platform letting property owners sell without agent fees. ~50% designed/built solo; 2,160+ sellers onboarded.
.NET Core, C#, TypeScript, SQL Server, Azure

Home Value Paid Report

Paid (\$9/address) property-insights product: valuation, tax history, market trends, risk data. Owned end to end incl. payments; 30+ sold.
.NET, RabbitMQ, Cybersource, SQL Server

AI-SDLC Automation (XomeGPT + Copilot/Claude Code workflows)

Built internal AI tooling and an automated ticket-to-PR development pipeline adopted across the team; presented to VP-level executives.
Azure OpenAI API, GitHub Copilot, Claude Code, Chart.js

EDUCATION

Post Graduate Diploma, Software Development International Institute of Information Technology Bangalore (IIIT-B) 2021-2022

B.E. Sri Krishna College of Technology 2016-2020

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)

Microsoft

SKILLS

Frontend: React, Next.js, TypeScript
Backend: .NET Core, C#, ASP.NET Core, .NET Worker Services
Database: SQL Server
Cloud (Azure): App Service, App Configuration, Blob Storage, Key Vault, Application Insights
Applied AI: GitHub Copilot (VS Code Agent Mode, Copilot CLI), Claude Code, AI-SDLC automation
